

You're invited to a FREE Lunch 'n Learn on

**TELEPHONY and
UNIFIED COMMUNICATIONS.**

Data and voice systems are colliding.

Learn how the newest telephony systems gather business intelligence helping businesses to streamline operations and increase sales.

- Productively manage communications in a multi-device and/or mobile environment.
- Accelerate information access with integration into your business applications.
- Take advantage of communications features without the "additional, traditional" costs, such as:
 - Visual Voice Mail
 - Caller ID
 - Find Me / Follow Me
 - Visual Conference Call Management
 - User-Friendly Navigation
 - Call Management Tools, and more.

Join us for a FREE lunch and discover how these powerful communication systems can improve performance and productivity:

- **Reduce operating costs.** Save on your monthly phone bill.
- **Enhance loyalty and retention.** Provide a personal touch to your customers.
- **Grow your system as you grow.** Accommodate your changing business communication needs quickly and easily.

**FREE
Lunch 'n Learn
TELEPHONY and
UNIFIED COMMUNICATIONS**

**Tuesday,
August 10, 2010**

12:00 – 1:30 PM
